

Village on the Green, Retirement Community Carole Halliday, Accounting

Village on the Green
Longwood, Florida

Overview

Village on the Green is an award winning LCRC retirement community located in Longwood, Florida. Village on the Green provides an "all-inclusive" lifestyle giving their residents just about everything they need in one place along with convenient services. From housekeeping and maintenance to continuous dining, their services and amenities make life easier and more enjoyable for their residents. Village on the Green uses **FullCount** software by Alliance Technologies to manage an average of 300 resident transactions per day, including dining, bar, beauty shop and maintenance purchases.

FullCount Testimonial

We are one of your biggest fans. We have been using FullCount for many years and absolutely love it. Actually, we can't imagine what life would be like without FullCount. The system is a big time saver for us. The speed and accuracy associated with capturing purchases and pulling reports is really what does it for us. For example, yesterday we had 294 purchases throughout our community that were all managed using the FullCount system. The process for scanning an item or meal is not only convenient for our residents, but it's also efficient from an operations stand point. If residents have questions about past purchases or want a detailed meals report it's all right there for us. Plus, the information from FullCount pulls right into our billing system which is an additional time saver for us. Having a system with the reliability and accuracy that FullCount provides is such a huge benefit for our organization.

Implementation and Training

To get up and running with FullCount doesn't take long. I was able to learn the FullCount system in about one day – it's really that easy.

Customer Support

The support we receive through Alliance Technologies is wonderful. You guys are right on. You're not only quick to get back to me when I contact you, but you'll also provide a solution for me right away.

Return on Investment

We are very pleased with the return on investment we've achieved with FullCount, it is well worth it!
